

24 April 1957

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Comments
"Suggested US Line in Present Crisis"

25X1

1. We believe that any US statement concerning Israel and the refugees would, if it were substantially to affect the situation, have to be so strongly anti-Israel as to be wholly out of accord with any past or realistic future US policy. Any statement on these subjects which the US could in fact make would almost certainly have little influence on the immediate crisis.
